

CARDON group

value. growth. success.

cardongroup.ca

About Us

CARDON is a diversified company with a portfolio supporting clients across the energy value chain. Our approach is to allow our operating entities to focus on their technical expertise and brilliance and lessen the burden of day-to-day corporate services.

We help businesses grow, by delivering the best in professional services. We employ experts in the fields of HR services, corporate finance, information technology, and corporate management to develop and implement strategies which align with our partners goals. We are strategic in that we build a path tailored to each of our clients, leveraging decades of experience so our solutions realize success.

Scaling businesses through purpose driven professional services.

Value

We create value for our partners, taking the headache out of corporate services and offering simple, tailored, cost-effective solutions.

Growth

We are committed to support the growth of businesses, helping them achieve their goals by employing the best people and processes available.

Success

We are passionate about winning and are willing to share in the risk to ensure the businesses we support succeed.
